

## STUDENT IDENTIFICATION CARD NOTICE

Effective November 9, 2010, the School of Continuing Education discontinued issuing photo identification cards as a cost reduction measure in response to the current budget environment. As a replacement, students may request an Access Card for use in our SCE labs and libraries. Additional information is provided below as you familiarize yourself with the new process.

### ***Frequently Asked Questions***

#### ***Why did you stop issuing photo identification cards to students?***

The cost involved in materials and maintenance of the ID card system became too high to support given the current budget climate.

#### ***Will my Access Card be accepted at the Cypress and Fullerton Colleges' Libraries and Student Centers?***

Yes, students will be able to check materials out at Cypress and Fullerton College libraries by scanning their Access Card AND showing a valid photo ID.

#### ***Why are you taking my photo if I will not receive an ID card?***

We are asking to take your photo to help us be better prepared in the event of an emergency such as an earthquake. A photo will allow for emergency response staff to better account for students on our campus.

#### ***Why do the colleges issue photo ID cards and SCE does not?***

The campus photo ID card is the preferred source of photo identification at Cypress and Fullerton College. The California Education Code allows the colleges to charge a fee for a student ID card.

#### ***Can I pay for a student photo ID card?***

Unfortunately, California Education Code specifically defines under what scenarios a fee can be charged, and the School of Continuing Education does not meet the criteria. Given the cost associated with maintaining a photo ID card system and materials, we are no longer able to fund ID card services.
